R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see http://rmarkdown.rstudio.com.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

```r
library(tidyverse)
data("storms") # load toy dataset

# get info about our storms dataset
?storms

# plot histogram for the maximum wind speeds (knots)
hist(storms$wind)
```

Histogram of storms$wind
